

REFLECTIVE WRITING

What is Reflective Writing?

Writing reflectively involves **critically analyzing** an experience, recording **how it has impacted you** and **what you plan to do with your new knowledge**.

It can help you to reflect on a deeper level as the act of getting something down on paper often helps people to think an experience through.

Reflective writing is...

- Written in the first person
- Analytical
- Free flowing
- Subjective
- A tool to challenge assumptions
- A time investment
